Aims and objectives

What do you wish to achieve by providing regulated activities?

How will your service help the people who use your services?

Please use the numbered bullet points:

1 To ensure that all services are delivered flexibly, attentively and in a non-discriminatory fashion, whilst respecting each service user's right to independence, privacy, dignity and choice.

2 To ensure that each service user's values and needs are respected in matters of religion, culture, race or ethnic origin, marital status, parenthood, disabilities and impairments, age, gender, and sexual orientation.

3. To ensure that the support service is delivered in accordance with the agreed support agreement, and that this is reviewed at regular intervals to ensure that the agreed outcomes are being achieved.

4. To manage and implement a formal programme of staff recruitment, training, personal development and allocation, thus enabling service user's needs and wishes to be met effectively.

5. To manage the support service efficiently and effectively by making the best use of resources, and to maximise good value for both the purchaser and the service user.

6. To match each support worker as closely as possible to the service user's personality, needs and preference.

7. To ensure that each service user is assessed at the time he/she is referred to us, and that a comprehensive support plan is devised, agreed and set in place before any services are delivered.

8. To undertake a Risk Assessment of the Environment and Health and Safety hazards within the service user's home to ensure that any hazards are reported to the service user and the purchaser. This will help ensure any hazards are rectified and managed effectively.

9. To ensure that all service users are provided with written information on the organisation's procedure for handling complaints, comments and compliments, and how to use it. This is done in the form of a service user guide and is offered in various formats.
